The Department of Knowledge Production

Course Instruction
Knowledge Production staff offer course-integrated instruction to develop creative and technology-rich assignments. These opportunities are customizable and flexible to fit your needs. Here are some examples of previous instructional experiences we have co-created with faculty:

- Creating infographics
- Graphic design and image manipulation
- Virtual reality
- Web publishing using Google Sites (websites, portfolios, online exhibits, blogs)
- Video and Audio creation and editing
- Geographic Information System (GIS)

Consultation
Additionally, we meet with individuals and small groups to plan projects and offer guidance with questions surrounding:

- Data cleaning, analysis, and visualization
- Graphic design
- Virtual reality
- Video and audio creation and editing
- Large-format printing

<tr>
<td>The Lied Library Design Lab Specialist supports the creation of podcasts, music recordings, video presentations, websites and other types of research and creative activity. The Specialist works with instructors to create course-integrated instructional sessions for assignments with a multimedia component.</td>
<td>The Data Visualization &amp; GIS Specialist provides expertise in the identification and use of data and tools associated with data collection, processing, cleaning, analysis, and visualization. Faculty, students, and researchers from all disciplines are welcome to utilize the services provided, whether you have a question about a program, need support in your course instruction, or would like to brainstorm a research initiative.</td>
<td>Large-format printing is available for research posters and creative activities. Staff are also available to provide consultation for poster design. Large-format print requests are charged to your library account and paid for at the Lied Library Circulation Desk. Large-format print request require 48 hours to process, so please plan accordingly.</td>
